UNIQUE CARD RISE CHEST

Originated By Clint Reidel

Manufactured By U.F. Grant

DO NOT PUSH BACK IN UNLESS YOU HAVE CARDS IN GIMMICK... To cause cards to rise out of this chest in a most mysterious manner, secretly get selected cards to top of deck and put deck in houlette inside the box.. Hold the box at the sides with one hand, so thumb is at one side and the index finger at the back and rest of the fingers at other side of box.. Index finger just pushes back of box in S L O W L Y and first card rises as the cover mysteriously opens.. When you remove card let cover snap closed and repeat above for as many cards as desired..

Subtle Method For Getting Cards To Top Of Deck - Have a card reversed on bottom of deck... Fan deck out so this does not show and have cards removed, looked at and returned to the top of the deck, then cut the deck and later fan deck out to show cards are really lost and you discover there is a card accidentally? turned over in the deck, cut this card and all the cards below it to top of deck, then you have the selected cards on top, ready to put in chest and rise.
