

DEVIL'S CANNISTER

MANUFACTURED AND RELEASED BY TM
MAK MAGIC CO. COLUMBUS OHIO

A U.F. GRANT
INVENTION

- IMPORTANT -

Use lighter fluid very sparingly,
a little goes a long way.

Secret and handling; You will note there is a ring near the top of the can covered with asbestos. The cannister has only a half of a bottom. Place lighter fluid on the asbeston ring. Use just a little as you want just a small flame. Ignite the fluid tipping the cannister just slightly. A borrowed bill is dropped in the flaming cannister so that it lands on the half bottom. As you turn to place the cannister on the table, tip it in the other direction and the bill will secretly drop into your hand. You can then reproduce it an any manner desired. To reproduce the article, try this; borrow a ring and vanish it in any manner desired, but so that it is left palmed in the left hand. Set the can of fire on the left hand, over the ring. Reaching down in the flames with a long wire hook you reproduce the missing ring.

SUGGESTED EFFECTS:

- 1) A spectator writes a question, folds it in small sections and drops it in the flames. You steal it. Secretly open and read it under cover of a writing pad and answer the question.
- 2) A person loans you an unusual pocket piece or pin. You toss it into the flames. State that you have a duplicate in your pocket. Steal the item from the can and reproduce it from the pocket.
- 3) Drop a marked coin into the flames and reproduce the same coin from the air.
- 4) A spectator writes a name on a slip of paper and drops it in the flames. You bring out a prediction, actually, the stolen slip. Hand it to another spectator to read. It contains the same name.
- 5) INDUSTRUCTIBLE PAPER, A person signs a slip of paper, folds it and drops it in the flames. You reproduce the same signed slip from your pocket.
- 6) Have a bill folded, secured with a paper clip, and secretly loaded in the can. Hold a flash bill over the can. It flashes up and vanishes. You steal the loaded bill and procure it from the air.
- 7) You can do a misers dream by stealing coins out of the can, producing them from the air, and dropping them back in the can. Repeat as many times as desired.
- 8) A silk, securely rolled, may be stolen from the can and then produced from the flames.
- 9) Make out a check, drop it in the flames, and then produce the cash from the air. Secretly steal it from the can.
- 10) Flash bills are ignited in the flames, and then you catch half dollars from the air.
- 11) Very good for the "living and dead test" to get possession of the dead name.
- 12) Good for the vanish of the torn pieces in card tricks.

Remember to use the lighter fluid, very sparlingly.

Have Fun U.F. Grant
