

Don Allan's Comedy Egg Can

MANUFACTURED AND RELEASED BY
MAK MAGIC CO. COLUMBUS OHIO

We send you a special cover with a bottom in it and a finger hole near the top, at the rear. Also supplied is a plastic tumbler with a black bottom. The tumbler will fit in the cover. A card with the wording " *Do Not Remove* ", completes the outfit.

To prepare for the effect, you will need a blown egg. You can make this as follows: Remove an egg from the refrigerator and let it come to room temperature. Using a large needle, make a hole in one end about the size of the lead in a pencil. Do the same to the other end. Push the needle into the egg thru one of the holes. Be sure to hold onto one end of the needle. With the needle sticking inside, shake the egg. This will break up the yoke. Remove the needle and blow in one end of the egg, forcing the contents of the egg out of the bottom hole. Discard the contents. You can prepare several eggs at a time and save them for future shows.

Further preparation consists of filling the tumbler to overflowing with candy and inverting the cover over it. Then, using the finger hole, turn the cover over so that the tumbler is upside down inside the cover and the cover is on the table open end upwards.

PRESENTATION:

Pick up the blown egg and crack it on the top edge of the can. As you do this, part it and apparently drop the contents into the can. You separate the egg at the edge of the can and go thru the motions of shaking the contents into the can. Then toss the shells to one side. Don't worry about not fooling them with this, as Don Alan fooled all the magicians with this move. There is no reason for anyone to think that it is not a real egg.

Have a boy step forward. Place the card, printed side down, (without showing the printing), on top of the can. Invert the can and place it on top of the boy's head. The card will be between the can and the boy's head. Have him hold it there. Now, you suddenly recall that you forgot what to do next, and explain that the directions are on the card. Slide the card out and show it. "DO NOT REMOVE".

Pick up an egg beater and explain to the boy that you are going to slide the can off of his head to the front and as you do, the egg will fall. He is to beat the egg with the beater as it goes by. Hand the beater to the boy as you hold the can on top of his head, so that he will have both hands free.

He turns the beater as you slide the can off of his head. Your finger keeps the glass from falling out. As you slide it off nothing happens. Place the cover on your hand and then lift it to reveal a tumbler full of candy. This is given to the boy.

Have Fun
