

KLEEN-KUT MILKO.

The outfit consist of a tube with a celluloid insert with gold band at the top and a tall glass with matching gold band at the top.

Fill the glass half full of milk or any other liquid and slide cover down over the glass and glass top pushes the fake up out of tube... Now with fingers underneath to lift glass, pick up entire outfit and place in a mouth up hat....

Then show a silk and reach in with free hand and bring tube out with fake glass sticking up out the top and appears as if you have the actual glass of liquid, as the milk level is too be below the top of tube...

Cover top of tube and glass with the silk and suddenly push silk down thru tube at same time push fake down into tube and glass has apparently vanished from same and remove missing glass from hat...

FOR A PENETRATION EFFECT:- Place cover over glass as above and invert a hat over top of all, then raise up back edge of hat and remove cover and apparent glass, letting hat fall back flat on table.. Place a plate on top of hat and then cover with apparent glass on top of plate.. Suddenly crush hand down on top of outfit and glass is seen to apparently, visibly penetrate plate and hat, as hat is raised to reveal missing glass of liquid.

FOR A STRAIGHT GLASS VANISH:- After pouring liquid in glass and covering same and lifting up entire outfit, let glass proper fall into a black-art well, or on servante etc. etc... As lower edge of outfit comes near top of table.. Then step away and toss silk over top and vanish glass..

A U.F. Grant Release.
